

## **Magee Mitchell Bio**

Magee Mitchell is an independent candidate for the Kelowna-West riding. With experience in several industries and a BA in Political Science I believe it is time to get big party politics out of our government and start bringing the voice of all British Columbians to Legislature. Our federal government has led by example recently, showing that corruption, scandal and helping party supporters is what is most important rather than finding solutions that work for all Canadians. There are many serious issues we face today such as affordable housing, homelessness, heavy drug use, Covid recovery, unfair ICBC rates and proper care for our aging population, but a main focus of mine is protection and wellbeing of our youth and families. I would like to see higher prison sentences for sexual assaults on minors, encourage all British Columbians to unplug and rebuild family values and create entrepreneur programs for teens.
